

10.0 Care of your Easy Sun PARASOL SUNSHADE

Note

- Do not use any sharp-edged tools such as knives or metal scrapers, or any aggressive cleaners or solvents, to clean your sunshade.
- Do not use large quantities of water when cleaning, in other words do not use hosepipes or high-pressure cleaners.

10.1 Cleaning the canopy material

The canopy material can be cleaned of dust and light soiling using a brush or a damp cloth. If heavy soiling is present the canopy must be removed from the sunshade frame and cleaned. You can find information about cleaning the canopy material on the label sewed onto the canopy.

10.2 Removing sunshade cover

Tools required:

- Phillips screwdriver No. 2

Stages:

- Open the sunshade about half-way.
- Release all material velcro bands on the sunshade frame from the inside.
- Close sunshade and remove all screws in the sunshade cover bottom fixing with a Phillips screwdriver.
- Open zip and closing tape in top cover fixing and remove cover downwards from sunshade frame.

Reassembly of the canopy material takes place in the same manner but in reverse order
